

THE PROGRAM CONTINUES

Cody Josti

Cody is a Life Scout from troop 238 and is one of our troop guides.

He's the guy where if he's not out playing sports he's eating Italian food and watch any of the original 6 Star Wars.

Ryan Donnelly

Ryan's a Life Scout from troop 281 and is a troop guide for our youngest patrol. He'll either be playing video games or watching Dead Pool 2 and eating junk food.

Jacob Stolberg

He's a Life Scout From Troop 123 and is one of 9 troop guides. He loves Fish and Chip and watching Scott Pilgrim. If he's not watching that he's probably cooking.

Tim Berthiaume

He's a Star Scout from troop 106 and is a troop guide. If he's not playing tuba he'll be watching Ready Player One and eating waffles.

The Road To Enabling

The patrols have been working well together and are heading towards performing. Of course it being the day before the outpost making it extremely critical that they work together well and are performing. The day of the pioneering project I think that storming was felt by every patrol which is good because now they all know how they work best together. The biggest vision for staff it to make sure that we have used EDGE to the best for our ability to make the participants the best leaders they can be. We want to enable them to become the best they can be.

Jacob Hendricks

Jacob's a Life Scout from troop 114 and is a second year Troop Guide. He loves rowing for his high school and for practice, if he's not rowing he will probably be watching 21 Jump Street and eating chicken pram.

Trivia Answers

The total number of Exoplanets is 3735.

Realistic First-Aid

We staged an accident and seed how the participants would react. After that we had them create there own fake injuries and a story to go along with it. They did an awesome job. This is good way to mix teaching and fun because the staff one comes out of no where so we taught them to always be prepared for anything. When they did their's they learned to make fake blood and flesh and had lots of fun in the process.
