# MORE ABOUT OUR STAFF

## Jacob Scotti

Scotti is the older of our two Quarter Masters at 16 years old. He's a Life Scout from troop 165, same as Cutter and John McCabe. If he's not dirt biking or making knives then he'll probably be watching Interstellar and eating lobster.

This is Scotti wearing his cyborg helmet for our quest skit during our opening campfire 🔥 .

# John Gorman

He's 14 and a Life Scout from troop 106. John's a troop guide for the week. If John's not eating shepherds

pie 🍌 and watching aliens he's playing soccer.

## Team Development

Today being Tuesday the patrols should be about in the beginning of norming stage of team development. Norming is almost at performing but the group isn't at the highest level they could be.

This is an example of great team work and team development because they are all working together and are creating memories for the future. Here are some more examples of team development.

### *Highlights of the week*

Our Mascot, Larry The Leader, showed up the night before the participants showed up. The opening campfire was nice because it created an example of a good campfire and quest. Our bottle rocket launch was so much fun and brought out lots of creativity.
